Some of the Washington correspondents represent ex-Secretary Bristow and General Harlan, the Kentucky Republican leaders, as dissatisfied because they have not been sufficiently recognized by the Administration. Their story is that General Harlan is said because he was not called to the Cabinet, and that Bristow wonders because he is not appointed to the vacant Supreme Court place. It is postyesterday. The coroner's jury in the case severely censured the city authorities for not paying proper attention to the street upon which the accident occurred. ents represent ex-Secretary Bristow and gerate these gentlemen's feelings. A colored lad named William Dade entered the store of Mr. Morrison, one door party organs had passed away, and that journals nowadays to be successful must be independent, praising and blaming in perfect freedom.

The most puriling problem Secretary Thompson has met in the Navy Department is what became of the million dollars for which the League-island navy-lars for which the League-island navy-

yard was sold. Judge Kelley, too, is a good deal stirred up about it, and says that he will find "the missing million" or put several persons in the peniten

The Natchez (Miss.) Democrat sees and confesses that its State is suffering as much from its bourbon press as almost any other cause.

Senator Bruce, the only negro in the upper branch of Congress, is an avowed inflationist: "I am in favor of restoring the silver dollar to the value of a dollar, and making it a legal tender. I am in favor of the remonetization of silver. Delieve in having the dollar of our forefathers restored. With a currency steadily improving in value, and the addition of vast crops to the markets of the country, the day of solid/growth and prosperity can not be far off.

Mr. W. B. Simpson, the wholesale dry goods merchant, takes a cheerful view of commercial prospects hereabouts from this time on. He thinks that the receipts for wool and grain will, as a general thing, let the farmers of this region out of debt, and enable everybody dependent on their prosperity to pay up and square off. The farmers have been going slow for two years past, buying very little and practicing close economy in order to get out of debt, and this year promises to let them out. For the information of one of our ex-changes we will state that General Goff lid act accept the position of Solicitor of the Treasury, tendered him by the Presi-lent; neither is it true, so far as we have seen, that he has been offered the Swiss mission. General Goff is a man of sense, and probably sees that he cannot afford to give up his present position as District Attorney, and his large private business, for a few years' office of the kind referred to.

The new government 4 per cent bonds meet only a very indifferent reception as a popular loan. There is no local movement to subscribe, and the whole popular subscription reported at Washington, after the bonds have been a week before the public, is about \$1,100,000, most of which comes from New York. The treasury officials under this enlightenment do not anticipate more than \$3,000,000 popular call. Probably the banks, however, will yet take some millions to place on deposit with the treasurer at Washington, instead of 5 and 6 per cents.

Let some Democratic politician rise and explain. An able Democratic newspaper will be heard on the subject, if it has anything to say The Boston Advertiser, noting the finant and trade situation of the country, remarks that, since March, 1874, there has been a contraction of currency to the amount of \$63,000,000.
